Re: Request for Assistance from the Tombigbee River Valley Water Management District (TRVWMD)

Dear Sirs,

Thank you for considering this request from the Board of Mayor and Selectmen for the City of West Point, MS for needed assistance in stream cleaning the open ditch between Old Tibbee Road and East Church Hill Road as highlighted on the attached satellite imagery.

Situation: Subsequent to the demolition of the old Sara Lee facility, the original design of the plant and infrastructure used a centralized collection system of both storm and wastewater that discharged directly to the mechanical wastewater treatment facility, which now belongs to the City of West Point. Currently there is no wastewater discharge from the demolished facility; however, all storm water from previous infrastructure (including all parking lots) continues to be discharged directly to the city owned wastewater treatment facility. This has resulted in continued mechanical treatment of millions of gallons of uncontaminated rain water that can legally be rerouted to the open ditch to merge with the existing roadway storm water drainage system. It is not hard to understand, especially during heavy rains and in more recent years, multiple torrential 500 Year flooding events that this causes thousands of dollars unnecessary wastewater treatment expense for our ratepayers. This discharge expense; however, is the lesser of two other evils resulting from this crisis. First, these torrential rains and our ability to treat or safely store the additional discharge until it can be treated placed us and the environment at critical junctures on multiple occasions. We are strictly limited by MDEQ permit to discharge no more than three (3) Million Gallons Per day (3mgd). These rainfall anomalies can equate to as much as one third (1/3) to one half (1/2) of our total daily treatment and discharge limit. When combined with typical daily residential and commercial wastewater discharge between one (1mgd) and (1.5mgd), there may not be adequate margin for planned commercial development for PECO Foods nor maintain capability for additional economic development.

This heavily overgrown drainage ditch cleaning project is sorely needed in our city and county as we continue to work toward our mutual economic success.

Thank you for your support in requesting TRVWMD's assistance in the identified stream cleaning to allow for the rerouting of storm water discharge from the former Sara Lee facility, saving thousands of dollars in unnecessary wastewater treatment expense, ensuring success for Clay County and West Point's economic future.

Sincerely,

Harmon A. Robinson, Mayor

# STATE OF MISSISSIPPI

## Office of the Governor

### EXECUTIVE ORDER NO. 1535

**WHEREAS**, on March 14, 2020, pursuant to the Constitution of the State of Mississippi and Miss. Code Ann. § 33-15-11(b)(17), I issued a Proclamation declaring that a State of Emergency exists in the State of Mississippi as a result of the outbreak of COVID-19; and

**WHEREAS**, on January 31, 2020, the United States Department of Health and Human Services Secretary Alex Azar declared a public health emergency for COVID-19 beginning on January 27, 2020, on March 11, 2020, the World Health Organization characterized COVID-19 as a pandemic, and on March 13, 2020, the President of the United States declared a nationwide state of emergency due to the coronavirus COVID-19 pandemic; and

**WHEREAS**, the worldwide outbreak of COVID-19 and the effects of its extreme risk of person-to-person transmission throughout the United States and Mississippi significantly impacts the life and health of our people, as well as the economy of Mississippi; and

**WHEREAS**, with vigilance and common sense, and as a result of the continued sacrifices made by all Mississippians in the interest of public health over the past eight months, COVID-19 infections and resulting hospitalizations have been effectively managed; and

**WHEREAS**, as the scientific community learns more about the novel coronavirus, the near unanimous opinion of the scientific community, including the recommendations of the CDC, the Mississippi State Department of Health and the State Health Officer, is that the transmission of COVID-19 can be greatly reduced if people will wear a face covering in public spaces, practice social distancing by maintaining a minimum of six feet separation between people not in their household, minimize social gatherings, and practice good hand hygiene; and

**WHEREAS**, Mississippi must continue to protect lives while restoring livelihoods, both of which can be achieved with the expert advice of medical professionals and business leaders; and

**WHEREAS**, as Mississippi continues to safely recover the key to reducing spread of COVID-19 is the continued implementation of reasonable public health measures under the current circumstances including social distancing, limited capacity of gatherings where individuals are in prolonged close proximity, and use of face coverings for individuals engaged in close proximity activities and for prolonged gatherings where social distancing is not feasible; and

**WHEREAS**, continuing to follow a measured and strategic plan to allow all businesses and non-profits, as well as all Mississippi schools to continue to operate within the State of Mississippi is essential to the health, safety and well-being of Mississippi residents; and

**WHEREAS**, in consultation with the State Health Officer, Mississippi can continue business, healthcare, educational and recreational activities as set forth herein.

**NOW, THEREFORE**, I, Tate Reeves, Governor of the State of Mississippi, by the authority vested in me by the Constitution, the Mississippi Emergency Management Law as amended, Miss. Good Morning Amy,

Please ask the board for authorization to be reimbursed for necessary online CEC credits before the end of December to maintain my CFM Certification if I am unable to obtain free online sources. I have 11 so far and should get 1.5 more "free" CEC credits today for a zoom conference that will be in progress during your regular scheduled meeting today. I think I can obtain the rest of the credits for free, but if not I think the remaining 3.5 hours of CEC credit costs will not exceed \$250.00.

Respectfully,  
R. Jones

Dear Mr. Jones:

We would like to take this opportunity to again congratulate you on attaining the professional status of Certified Floodplain Manager. Believe it or not, your two-year certification period is ending and we must notify you that your certification expires on 1/31/2021.

A total of 16 Continuing Education Credits (CECs) are required during the two-year renewal period to maintain your certification. You currently have 11 CECs, which is less than the required number for this term. Send us the CECs still needed that you completed in the last two years, with a completed CEC Verification form for each submittal. Please log into your member profile on our website to view your current record of CECs.

Please send the checked items by **1/31/2021**, so we can process your renewal:

- Completed Renewal Form
- CEC Verification – see CEC Guidance on [www.floods.org](http://www.floods.org)
- \$120.00 Renewal Fee (Save \$40, you can receive an early bird discount by sending your completed renewal to ASFPM by 1/1/2021 with payment of \$80)

If we receive your renewal after your expiration date, a Late Fee of \$75 will be added to the renewal fee for a total of \$195. As a reminder, the Certification Board of Regents Policy requires a CFM who is decertified for non-renewal to wait 12 months from the decertification date before being allowed to take the CFM exam again.

Payment can be handled by check, purchase order or credit card. If you are using an agency or company check, make sure a copy of the renewal form accompanies the payment. If you have any questions, contact Anita Larson, Certification Coordinator, at [cfm@floods.org](mailto:cfm@floods.org)

We thank you for your commitment to reduce flood risk and losses in the nation and applaud your efforts to advance the floodplain management profession.

Sincerely,

Louis T. Greenwell, GISP, CFM
