### General Instructions

This form is designed so that application can be made for funds from one or more grant programs In preparing the budget adhere to any existing Federal grantor agency guidelines which prescribe how and whether budgeted amounts should be separately shown for different functions or activities within the program For some programs grantor agencies may require budgets to be separately shown by function or activity For other programs grantor agencies may require a breakdown by function or activity Sections A B C and D should include budget estimates for the whole project except when applying for assistance which requires Federal authorization in annual or other funding period increments In the latter case Sections A B C and D should provide the budget for the first budget period (usually a year) and Section E should present the need for Federal assistance in the subsequent budget periods All applications should contain a breakdown by the object class categories shown in Lines a k of Section B

### Section A Budget Summary Lines 1-4 Columns (a) and (b)

For applications pertaining to a *single* Federal grant program (Federal Domestic Assistance Catalog number) and *not requiring* a functional or activity breakdown enter on Line 1 under Column (a) the Catalog program title and the Catalog number in Column (b)

For applications pertaining to a *single* program *requiring* budget amounts by multiple functions or activities enter the name of each activity or function on each line in Column (a) and enter the Catalog number in Column (b) For applications pertaining to multiple programs where none of the programs require a breakdown by function or activity enter the Catalog program title on each line in Column (a) and the respective Catalog number on each line in Column (b)

For applications pertaining to *multiple* programs where one or more programs *require* a breakdown by function or activity prepare a separate sheet for each program requiring the breakdown Additional sheets should be used when one form does not provide adequate space for all breakdown of data required However when more than one sheet is used the first page should provide the summary totals by programs

### Lines 1-4 Columns (c) through (g)

For *new applications* leave Column (c) and (d) blank For each line entry in Columns (a) and (b) enter in Columns (e) (f) and (g) the appropriate amounts of funds needed to support the project for the first funding period (usually a year)

For *continuing grant program applications* submit these forms before the end of each funding period as required by the grantor agency Enter in Columns (c) and (d) the estimated amounts of funds which will remain unobligated at the end of the grant funding period only if the Federal grantor agency instructions provide for this Otherwise leave these columns blank Enter in columns (e) and (f) the amounts of funds needed for the upcoming period The amount(s) in Column (g) should be the sum of amounts in Columns (e) and (f)

For *supplemental grants and changes* to existing grants do not use Columns (c) and (d) Enter in Column (e) the amount of the increase or decrease of Federal funds and enter in Column (f) the amount of the increase or decrease of non-Federal funds In Column (g) enter the new total budgeted amount (Federal and non-Federal) which includes the total previous authorized budgeted amounts plus or minus as appropriate the amounts shown in Columns (e) and (f) The amount(s) in Column (g) should not equal the sum of amounts in Columns (e) and (f)

Line 5 - Show the totals for all columns used

### Section B Budget Categories

In the column headings (1) through (4) enter the titles of the same programs functions and activities shown on Lines 1-4 Column (a) Section A When additional sheets are prepared for Section A provide similar column headings on each sheet For each program function or activity fill in the total requirements for funds (both Federal and non-Federal) by object class categories

Line 6a-i - Show the totals of Lines 6a to 6h in each column

Line 6j Show the amount of indirect cost

Line 6k - Enter the total of amounts on Lines 6i and 6j For all applications for new grants and continuation grants the total amount in column (5) Line 6k should be the same as the total amount shown in Section A Column (g) Line 5 For supplemental grants and changes to grants the total amount of the increase or decrease as shown in Columns (1)-(4) Line 6k should be the same as the sum of the amounts in Section A Columns (e) and (f) on Line 5

Line 7 Enter the estimated amount of income if any expected to be generated from this project Do not add or subtract this amount from the total project amount Show under the program

•

**INSTRUCTIONS FOR THE SF-424A (continued)**

narrative statement the nature and source of income. The estimated amount of program income may be considered by the Federal grantor agency in determining the total amount of the grant.

**Section C Non Federal Resources**

**Lines 8-11** Enter amounts of non Federal resources that will be used on the grant. If in-kind contributions are included, provide a brief explanation on a separate sheet.

**Column (a)** Enter the program titles identical to Column (a) Section A. A breakdown by function or activity is not necessary.

**Column (b)** Enter the contribution to be made by the applicant.

**Column (c)** Enter the amount of the State's cash and in-kind contribution if the applicant is not a State or State agency. Applicants which are a State or State agencies should leave this column blank.

**Column (d)** - Enter the amount of cash and in-kind contributions to be made from all other sources.

**Column (e)** - Enter totals of Columns (b), (c), and (d).

**Line 12** - Enter the total for each of Columns (b)-(e). The amount in Column (e) should be equal to the amount on Line 5, Column (f) Section A.

**Section D Forecasted Cash Needs**

**Line 13** Enter the amount of cash needed by quarter from the grantor agency during the first year.

**Line 14** - Enter the amount of cash from all other sources needed by quarter during the first year.

**Line 15** Enter the totals of amounts on Lines 13 and 14.

**Section E Budget Estimates of Federal Funds Needed for Balance of the Project**

**Lines 16-19** Enter in Column (a) the same grant program titles shown in Column (a) Section A. A breakdown by function or activity is not necessary. For new applications and continuation grant applications, enter in the proper columns amounts of Federal funds which will be needed to complete the program or project over the succeeding funding periods (usually in years). This section need not be completed for revisions (amendments, changes, or supplements) to funds for the current year of existing grants.

If more than four lines are needed to list the program titles, submit additional schedules as necessary.

**Line 20** - Enter the total for each of the Columns (b)-(e). When additional schedules are prepared for this Section, annotate accordingly and show the overall totals on this line.

**Section F Other Budget Information**

**Line 21** - Use this space to explain amounts for individual direct object class cost categories that may appear to be out of the ordinary or to explain the details as required by the Federal grantor agency.

**Line 22** - Enter the type of indirect rate (provisional, predetermined, final, or fixed) that will be in effect during the funding period, the estimated amount of the base to which the rate is applied, and the total indirect expense.

**Line 23** Provide any other explanations or comments deemed necessary.

## Memorandum of Understanding For ARC Projects

---

Project Name E 911 Addressing System (Clay County Board of Supervisors)  
State Mississippi Federal Agency \_\_\_\_\_

---

**The Following Conditions Apply to all ARC Projects**

- Deadline** The Commission may revoke or revise its approval of any project if work intended to be assisted is not underway within 18 months after the date of approval of such project
- Davis Bacon Wages** Davis Bacon wage rates (as determined by the Department of Labor for your respective area) must be paid for all construction projects in accordance with Section 402 of the Appalachian Regional Development Act of 1965 as amended
- ARC Underrun Policy** Each disbursement of funds for a project receiving assistance from more than one Federal source will be deemed to be a proportional disbursement from each source. In the event of an underrun, the ARC will be entitled to recover its proportionate share of the underrun.
- Additional Funds Added to the Project After ARC Approval** It is understood that if the applicant receives additional funding from any new source towards the eligible cost of this project after the ARC approval, these funding sources should not be used to reduce the amount of local funds pledged. If new funds are made available to this project, the ARC and the Basic Federal Agency, if any, should be notified immediately. ARC reserves the right to reconsider the level of its funding approval in such an eventuality.
- Changes in Scope** It is understood that a change-in-scope may not be implemented without prior written approval from the ARC and the Basic Federal Agency, if any. A change of scope is any major change to the project design, the type of project to be completed, capacity of the system, size of project, the number and/or type of customers served or equipment items purchased.
- Close Working Relationship With Basic Federal Agency** It is understood that the applicant must work closely with the Basic Federal Agency identified in the ARC application, if any, and follow bidding and contract award procedures to insure that all pertinent Federal laws are complied with. Coordination with the Federal agency begins with filing an application with the basic Federal agency.
- Restrictions on Assistance** ARC funds shall not be used for: a) any form of assistance to relocating industries; b) recruitment activities that place a state in competition with other state or states; and c) projects that promote unfair competition between businesses within the same immediate service area.
- Cornerstone or Plaque** Any facility constructed in whole or in part by funds provided under the ARDA shall include a cornerstone or plaque appropriately acknowledging the assistance provided through the ARC program, provided that such an item not be required if it would be prohibited as an eligible project cost under the basic federal program through which the ARDA assistance is provided.

# ARC Mississippi Non-Construction Project Application Narrative

(Suggested length 5-8 pages, please number pages)

- 1 Identify the primary ARC goal and objective the project will address. Identify and quote the primary ARC State Strategy the project will address. Project applications where numerous goals and strategies are identified will be returned and requested to identify the goal and strategy primarily related to the project

**ARC General Goal 3** Develop and Improve Appalachia's Infrastructure to Make the Region Economically Competitive

**Strategic Objective 3.3** Increase access to new technologies and telecommunications infrastructure

**ARC State Strategy** The Mississippi ARO will particularly support sustainable initiatives in the following areas that will develop basic infrastructure that does not require new and ongoing public funding. Make strategic investments in new technologies infrastructure to increase local and regional access

- 2a. Describe the specific problems or issues the project will address and how these issues impact the community. State in one sentence the main purpose of the project in terms of the goal and strategy being addressed (e.g., *To create jobs by providing training for small business owners*). Provide a detailed description of all major project activities, including what will be done, who will complete each activity, and a timeline for starting and ending the project. Explain why the proposed approach is the most beneficial

GTPDD will develop an addressing system for CLAY COUNTY to locate each structure to its true location for use in emergency response situations. Every structure in the county will be mapped using state-of-the-art GIS (geographical information system), GPS (global positioning system) and remote sensing (high resolution color aerial ortho-photography) technologies following the national standards for addressing. The addressing system shall include

- Location of each structure in digital format with its true coordinate
- Details of each structure in database format linked to map features
- A digital picture of each structure linked to database and map and
- Assignment of voting and political boundary designations to each structure

Both the parties (the County and the District) recognize the need for keeping the County addressing system updated as new structures/buildings are added. The District will help the County in drafting an ordinance for adoption to make sure that the address changes are reported and documented and every structure being built obtains an address before any utility is turned on. The District will work out a contract with the County to provide these services for assigning new addresses. This will help keep the E-911 map and the associated database updated on a regular basis in order to provide quality service for the county residents.

- 2b. Describe the accomplishments and progress to date if continuing an ongoing program (whether or not ARC funded). Illustrate local demand for the project (e.g., *letters from key stakeholders and customer data*). Explain how this project relates to the goal and strategy identified in item 1

With the development of an E-911 system in Clay County this will be the first time that a unified county-wide addressing system has been instituted in identifying all residential structures and assigning them an address. Clay County is an ARC distressed county and has faced serious economic conditions that has prevented the establishment of an E-911 system (*emerging technologies*). The Clay County Board of Supervisors realizes the importance of having a state-of-the-art E-911 system that will help in identifying residences for emergency purposes. This system will identify residential commercial and industrial structures for many types of governmental activities such as property taxes and garbage pickup. There many other benefits such as identifying the locations of new fire station placement and more economical school bus routes. This project should help make Clay County economically competitive with surrounding counties by giving the residents one more service that they have previously not had.

- 3 **Describe how the project meets the priorities of local and regional community or economic development plans, and describe efforts to coordinate the project with other area economic development activities. Identify any similar or completed projects underway in the Appalachian Region which relate to this project**

The project will create a better method for E-911 response for all residences of Clay County in case of emergencies. The system will also help in routing by the shortest distance and reduce travel time especially for emergency vehicles. The system will also make Clay County Phase II cell phone location compliant. The GTPDD Inc. has assisted with similar projects in Choctaw Oktubbeha Webster and Noxubee counties.

- 4 **Describe the project's anticipated service area including counties and census tracts served. Comment on the project's impact on ARC's designated distressed areas. Attach a map if needed to illustrate the project's service area and proximity to distressed areas.**

The project will serve Clay County which is a distressed county. A census map is attached indicating the census tracts.

- 5 **State outputs and outcomes in absolute numerical terms (not percents) per ARC's Performance Measurement Guidelines. Attach letters documenting jobs retained, jobs created, and leveraged private investment when applicable. Describe other project benefits as appropriate, such as likely impact on future economic development activity in the area, or anticipated spin off results.**

The E-911 system will be developed and implemented (output) and all residential commercial and industrial structures will be identified and given an address. By identifying all structures by address, there will be increased participation in all county services such as garbage collection which will benefit the county as a whole. If there are any new structures that have recently been completed they will be added to the tax rolls if there be a need which is an obvious benefit to Clay County. Any property that is added to the tax rolls will have a positive effect on the county. All Clay County residents (21 979) will benefit from the final product (outcome).

- 6 **Briefly review the applicant's capacity to undertake the proposed activity by describing previous experience with relevant activities. Describe the qualifications needed for key individuals who will manage and operate the project. Attach position description or brief resumes. Describe proposed qualifications for all consultants and subcontractors, and describe the competitive procedures used to select them.**

The Golden Triangle Planning and Development District (GTPDD) will furnish sufficient staff to complete the E-911 Addressing System for Clay County. Staff from the GTPDD has previously completed this type of project in four (4) other counties in the seven-county area. Staff of the GTPDD has the necessary skills in GIS mapping and analytical interpretation to assist Clay County in completing the project (*See Resume of Thomas B. Stanford*).

- 7 Identify each funding source for the project and the status of each funding commitment. Detail why ARC funding is needed at this time. Explain the applicant's strategy for ensuring the project's long-term sustainability (once ARC funds are no longer available), including efforts to secure other sources of support for future operations.

Clay County is an ARC Distressed County and will provide a twenty (20) % match for the total cost of the project (see Local Match resolutions as attached). The Appalachian Regional Commission funding is needed due to the difficulty of a highly distressed county such as Clay being able to fund the complete project within a reasonable time frame. There is built-in funding included in each telephone bill in Clay County that will help to operate and maintain the system.

IN THE MATTER OF UNMARKED VEHICLES IN THE  
CLAY COUNTY, MISSISSIPPI SHERIFF S DEPARTMENT

---

There came on this day for consideration the matter of unmarked vehicles in the  
Clay County Mississippi Sheriff's Department

After motion by Mr Lummus and second by Mr Horton, this Board doth vote  
unanimously to authorize the Sheriff of Clay County, Mississippi to use the following  
vehicles as unmarked according to Section 19-25-15 of the *Mississippi Code of 1972*

SD 998	Ford Crown Vic	VIN 2FAFP71W34X136377
SD 990	Ford Expedition	VIN 1FMPU15L14LA88603
SD 555	Ford Crown Victoria	VIN 2FALP71W6TX194193
SD 1218	Ford Crown Victoria	VIN 2FAHP71W93X183937

These vehicles will be used for sensitive investigative procedures where marked  
vehicles would hinder law enforcement investigative procedures

This Board further orders that the Clerk attach hereto as an exhibit a list of all  
vehicles owned by Clay County and assigned to the Sheriff Department

It is also further ordered that this order cancels and supersedes any previous order  
of this Board relating to unmarked vehicles of the Clay County, Mississippi Sheriff's  
Department

IN THE MATTER OF AN NRCS PROJECT ON BAR HILL ROAD  
IN CLAY COUNTY, MISSISSIPPI

Supervisor Floyd McKee offered and moved the adoption of the following resolution,

RESOLUTION

WHEREAS, there is an urgent need for repair to Bar Hill Road in the Sand Creek Watershed being Section 22, 15S, R4E Clay County, Mississippi. The scope of the work will be bank stabilization and drainage repair

WHEREAS, without immediate attention taken toward this problem, considerable damage to property may result, and

WHEREAS, Clay County, Mississippi, is without sufficient resources with which to perform such tasks, and request that Tombigbee River Valley Water Management District reimburse Clay County for the 15% of the local match for said project. Clay County will design and contract the work out for said project

NOW, THEREFORE, BE IT RESOLVED by the Board of Supervisors of Clay County, Mississippi, that the Board hereby requests the Tombigbee River Valley Water Management District to reimburse Clay County its 15% match for the above stated project

Supervisor R B Davis seconded by motions and with all members present and voting "aye", the President declared the motion carried and resolution adopted. This order amends and supersedes that order adopted January 4, 2010

The following information for subject project is included in an email sent to you. Please print out the following and have the Clay County Board of Supervisors sign. Return the signed copies to our office and we will forward the required information to the State Office. The County does not have to sign all sites to obtain funding - they may have already repaired some sites or they may not have the funds available for their cost share on all the sites.

1. Damage Survey Report - Have someone representing the County sign sheet 11 for the sites the County chooses to request funding assistance. This should be sent to the State Office ASAP.
2. Application for Emergency Work - The County should sign this for each site after a meeting.

These projects should be completed by the County using their County Engineer and their Contracting Personnel. Tombigbee River Valley Water Management District will not be available to perform this work and we do not have the personnel to do this as a Federal Contract.

Please call if you have any questions.

Enter the dollar value of the potential future damages if no action is taken in the Future Damage (\$) column. This would be the estimate of the value lost if the EWP recovery measure is not installed. Use the repair cost or damage dollar method to determine the estimate of future damages. The repair cost method uses the costs to return the impaired property, good, or services based on their original pre-event condition or value. The damage dollar method uses an estimate of the future damage to value (e.g., if the structure is condemned, then enter the value of the structure). Enter the estimated amount based upon existing information or information furnished by the sponsor, contractors, or others with specific knowledge for recovery from natural disasters for each alternative considered. Often market values for properties or services can be obtained from personnel at the local county/parish tax assessment office.</p> <p>The DSI team needs to determine the Damage Factor (%) which is a coefficient that indicates the degree of damage reduction to a property that is attributed to the effect of the proposed EWP recovery measures. Use an appropriate estimate of how much of the damage the EWP recovery measure will avoid for the alternative being considered. If the recovery measures from a single site will prevent 100 percent of the damage, use 100 percent.</p> <p>The Near Term Damage Reduction is the Future Damage (\$) times the Damage Factor (%). Sum the Near Term Damage Reduction values to calculate the Total Near Term Damage Reduction.</p> <p>Enter the Net Benefit which is computed by subtracting the Cost from section 3 from the total near term damage reduction.</p> <p>The economic section must be completed for each alternative considered. The following information for subject project is included in an email sent to you. Please print out the following and have the Clay County Board of Supervisors sign. Return the signed copies to our office and we will forward the required information to the State Office. The County does not have to sign all sites to obtain funding – they may have already repaired some sites or they may not have the funds available for their cost share on all the sites.

1. Damage Survey Report – Have someone representing the County sign sheet 11 for the sites the County chooses to request funding assistance. This should be sent to the State Office ASAP.
2. Application for Emergency Work – The County should sign this for each site after a meeting.

These projects should be completed by the County using their County Engineer and their Contracting Personnel. Tombigbee River Valley Water Management District will not be available to perform this work and we do not have the personnel to do this as a Federal Contract.

File Code 120

The following information for subject project is included in an email sent to you. Please print out the following and have the Clay County Board of Supervisors sign. Return the signed copies to our office and we will forward the required information to the State Office. The County does not have to sign all sites to obtain funding – they may have already repaired some sites or they may not have the funds available for their cost share on all the sites.

- 1 Damage Survey Report – Have someone representing the County sign sheet 11 for the sites the County chooses to request funding assistance. This should be sent to the State Office ASAP.
- 2 Application for Emergency Work – The County should sign this for each site after a meeting.

These projects should be completed by the County using their County Engineer and their Contracting Personnel. Tombigbee River Valley Water Management District will not be available to perform this work and we do not have the personnel to do this as a Federal Contract.

Please call if you have any questions.
