

BE IT REMEMBERED that the Board of Supervisors of Clay County, Mississippi, met at the Courthouse in West Point, MS, on the 5th day of September, 2013, at 9 00 a m , and present were Lynn Horton, Luke Lummus, R. B Davis, Shelton Deanes, President, and Floyd McKee Also present were Amy G Berry, Clerk of the Board, Bob Marshall, Board Attorney, and Eddie Scott, Sheriff, when and where the following proceedings were as determined to wit,

NO _____

**IN THE MATTER OF ADOPTING AND AMENDING THE AGENDA FOR THE
BOARD OF SUPERVISORS MEETING HELD ON SEPTEMBER 5, 2013**

There came on this day for consideration the matter of adopting and amending the agenda for the Board of Supervisors meeting held on September 5, 2013

It appears to this Board the following items need to be added to the agenda for further consideration and discussion

- R B Davis requesting consideration of raises to E911 Employees
- Request to go into closed session

After motion by R B Davis and second by Luke Lummus this Board doth vote unanimously for the changes referenced to above to be added to the agenda and for such agenda to be adopted and approved as amended

SO ORDERED this the 5th day of September, 2013

President

NO _____

**IN THE MATTER OF APPROVING AND AUTHORIZING THE PRESIDENT TO
EXECUTE THE STORM WATER PERMITS**

There came on this day for consideration the matter of approving and authorizing the President to execute the Storm Water Permits

It appears to this Board the County Engineer, Robert Calvert, Sr, is requesting this Board's approval of two (2) Storm Water Permits for two of the industrial development projects at the Yokohama Plant Site, specifically, the Off Site Rail Spur Project and the Yokohama Blvd project

After motion by Lynn Horton and second by Floyd McKee this Board doth vote unanimously to approve of the said permits as attached hereto as Exhibit A and authorize the President to execute the permits

SO ORDERED this the 5th day of September, 2013

President

approved 9/5/13

MISSISSIPPI DEPARTMENT OF ENVIRONMENTAL QUALITY

**LARGE CONSTRUCTION NOTICE OF INTENT (LCNOI)
FOR COVERAGE UNDER THE LARGE CONSTRUCTION
STORM WATER GENERAL NPDES PERMIT MSR10 _____**
(NUMBER TO BE ASSIGNED BY STATE)

INSTRUCTIONS

The Large Construction Notice of Intent (LCNOI) is for coverage under the Large Construction General Permit for land disturbing activities of five (5) acres or greater; or for land disturbing activities, which are part of a larger common plan of development or sale that are initially less than five (5) acres but will ultimately disturb five (5) or more acres. Applicant must be the owner or operator. For construction activities, the operator is typically the prime contractor. The owner(s) of the property and the prime contractor associated with regulated construction activity on the property have joint and several responsibility for compliance with the Large Construction Storm Water General Permit MSR10.

Completed LCNOIs should be filed at least thirty (30) days prior to the commencement of construction. Discharge of storm water from large construction activities without written notification of coverage is a violation of state law.

Submittals with this LCNOI must include:

- A site-specific Storm Water Pollution Prevention Plan (SWPPP) developed in accordance with ACT5 of the General Permit
- A detailed site-specific scaled drawing showing the property layout and the features outlined in ACT5 of the General Permit
- A United States Geological Survey (USGS) quadrangle map or photocopy, extending at least one-half mile beyond the facility property boundaries with the site location and outfalls outlined or highlighted. The name of the quadrangle map must be shown on all copies. Quadrangle maps can be obtained from the MDEQ, Office of Geology at 601-961-5523.

Additional submittals may include the following, if applicable:

- Appropriate Section 404 documentation from US Army Corps of Engineers
- Appropriate documentation concerning future disposal of sanitary sewage and sewage collection system construction
- Appropriate documentation from the MDEQ Office of Land & Water concerning dam construction and low flow requirements
- Approval from County Utility Authority in Hancock, Harrison, Jackson, Pearl River and Stone Counties

ALL QUESTIONS MUST BE ANSWERED (Answer "INA" if the question is not applicable)

APPLICANT IS THE OWNER PRIME CONTRACTOR (Must check one or both)

P O Box 2261
Jackson, Mississippi 39225

642

Revised 12/16/10

**SUBJECT STORM WATER POLLUTION PREVENTION PLAN
YOKOHAMA BOULEVARD**

SITE INFORMATION

The construction site is linear and consists of approximately 3.9 miles of access road and six bridges. The construction will involve approximately 85.32 acres. The soils are mostly Kipling silt loams and Okolona silty clays. Kipling soils are somewhat poorly drained soils and have slopes ranging from 0-5 percent. Okolona soils are well drained soils on broad ridge tops and have slope ranges of 0-1 percent. The site is in the Ellis Creek, McGee Creek and Spring Creek Watersheds. These streams drain into the Tombigbee River.

SEDIMENT AND EROSION CONTROL REQUIREMENTS

VEGETATIVE CONTROLS Permanent controls (soil preparation, fertilizing, seeding, sodding and matting) will be placed as shown on the plans. Solid sodding will be placed in side drains at the locations shown on the plans. Any disturbed area laid-up for over 30 days will be seeded (temporary or permanent seeding) within 7 calendar days unless otherwise directed by the engineer at no additional cost to the project.

Temporary erosion controls consisting of check dams, wattles, and mulching will be used to control erosion in side drains. Check dams can consist of hay bales or stone and will be installed as directed by the engineer at no additional cost.

STRUCTURAL CONTROLS Riprap will be placed as shown on the plans. Silt fences will be installed as directed by the engineer to prevent sediment from leaving site at no additional cost.

HOUSEKEEPING PRACTICES The contractor is to perform his responsibilities as outlined in section 107 of the Specifications which include equipment maintenance and repair, concrete chute wash off, trash/debris, storage of chemicals and other toxic materials, and sanitary facilities. Storm water pollution prevention best management practice techniques are to be applied throughout the construction of this project the cost of which is to be included in regular bid items.

POST CONSTRUCTION CONTROLS MEASURES Upon completion of construction, vegetative growth along the roadway foreslopes will provide a buffer zone for loose material originating from the roadway. Ditch diversions reduce flow and velocity along the project. Vegetative growth on the backslopes provides a buffer zone for loose material originating beyond the backslope. Flatter grades and ditch treatments minimize erosion. Riprap ditches shown on the plans dissipate energy and reduce flow velocity.

IMPLEMENTATION SEQUENCE

The following sequence of construction activities to be followed

- 1 Install silt fences and erosion checks and wattles
- 2 Construct roadway, embankment, bridge and side drains
- 3 Complete permanent seeding, sodding and mulching

MAINTENANCE PLAN

The contractor and engineer will inspect all disturbed areas, erosion and sediment controls after each significant rainfall but not less than once per week and record the results of this inspection on the "Large Construction General Permit Site Inspection and Certification Form" include with the permit. The inspection reports and this SWPPP will be available for inspection during construction, and submitted to MDEQ with the Notice of Termination as required. The contractor shall make needed repairs to installed erosion control items weekly and after each significant rainfall as necessary. This includes, but is not limited to, removing sediment, repairing, reinstalling, or replacing silt fence, hay bales, or other temporary erosion control measures, repairing washes ditches, or other permanent erosion control devices.

**IN THE MATTER OF DETERMINING THE SUFFICIENCY OF THE PETITION OF
CANIDACY OF SAWANA D WALKER TO FILL THE VACANCY THAT EXISTS
FOR THE DISTRICT FOUR (4) ELECTION COMMISSIONER**

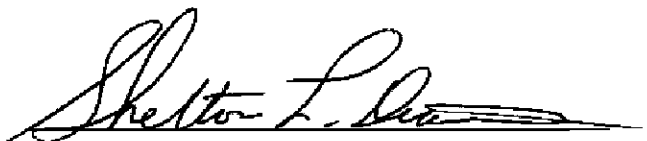

There came on this day for consideration the matter of determining the sufficiency of the Petition of Candidacy of Sawana D Walker to fill the vacancy that exists for the District Four (4) Election Commissioner

It appears to this Board as attached hereto as Exhibit "A" is the Petition of Candidacy of Sawana D Walker who is seeking office to fill the unexpired term of the vacated office as the Election Commissioner for District 4, and,

It appears to this Board Mrs Walker's petition was timely filed with the Clerk of the Board, the Circuit Clerk has verified and certified the petition contains the required number of signatures needed, and the President of the Board verifies the said candidate, Sawana D Walker, is a resident of the Supervisor's District in which she is seeking election, and that she is otherwise qualified as provided by law

After motion by Lynn Horton and second by R B Davis this Board doth vote unanimously and determine the Petition of Candidacy for Sawana D Walker as attached hereto as Exhibit A is sufficient and is hereby approved by this Board

SO ORDERED this the 5th day of September, 2013

President

IN THE MATTER OF APPROVING THE PROPOSAL UPDATE ON MOBILE HOME ASSESSMENTS, MAPPING MAINTENANCE CONTRACT, APPRAISAL MAINTENANCE CONTRACT FOR PERSONAL PROPERTY, AND APPRAISAL UPDATE CONTRACT FOR REAL PROPERTY WITH SANDERS AND ASSOCIATES

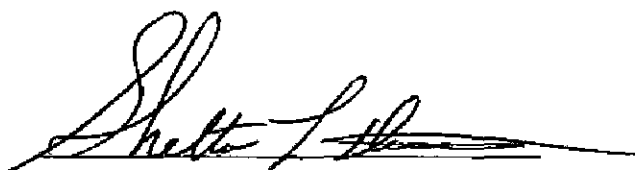

There came on this day for consideration the matter of approving the proposal update on Mobile Home Assessments, Mapping Maintenance Contract, Appraisal Maintenance Contract for Personal Property, and Appraisal Update Contract for Real Property with Sanders and Associates

It appears to this Board as attached hereto as Exhibit A is a proposal update on Mobile Home Assessments as presented by Mike Sanders of Sanders and Associates in the amount of \$24,500, and,

It appears are the Mapping, Appraisal, and Update contracts for the next three (3) years as attached hereto as Exhibit B which would cost the county for the 2013 -2014 year \$116,500, 2014-2015 year \$ 97,500, and for the 2015-2016 year \$97,500 for all three services to be performed each year

After motion by Lynn Horton and second by R B Davis this Board doth vote unanimously to approve the proposal update on Mobile Home Assessments in the amount of \$24,500 for services to be performed immediately by Sanders and Associates and FURTHERMORE, to approve and authorize the President to execute the Mapping Maintenance Contract, Appraisal Maintenance Contract for Personal Property, and Appraisal Update Contract for Real Property with Sanders and Associates

September 4, 2013

Clay County Board of Supervisors
P O Box 815
West Point, MS 39773

Re Proposal for Updating Mobile Home Assessments

Honorable Board,

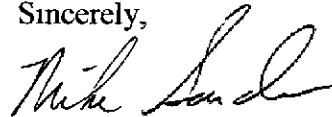

Sanders & Associates Appraisal & Mapping Service is pleased to respond to your request for a proposal to inspect, verify and update the assessments of all taxable mobile homes in Clay County. Our fee for these services would be \$24,500

This proposal would include an inspection of all parcels within Clay County to determine if a mobile home is located there. Once identified, pertinent data, needed for assessment, will be verified, correlated back to the present Mobile Home Assessment Roll and/or Land Roll and updated as needed. If no assessment record or registration is found, they will be given to the Assessor for further direction.

If you feel this proposal meets your needs, please let us know as soon as possible. We would need to start work immediately in order to complete the process before the next Mobile Home Roll is due. Upon completion, we would maintain the mobile homes at a rate of 25% annually as discussed previously.

Sanders & Associates has thoroughly enjoyed our working relationship with Clay County and welcomes the opportunity to further assist you and the Clay County Tax Assessor in your endeavor to meet your responsibilities in equalizing assessments. If you have any questions concerning this proposal, please advise.

Sincerely,

Mike Sanders
Sanders & Associates

Exhibit B

A RESOLUTION OF THE CLAY COUNTY BOARD OF SUPERVISORS
FOR THE PURPOSE OF RENAMING THE CLAY COUNTY PORT
THE 'RAYMOND D LUCAS MEMORIAL PORT'

WHEREAS, Raymond Dreyer Lucas was born on January 2, 1928 in New Orleans, Louisiana and departed his life on August 8, 2013 at his home in West Point, Mississippi at the age of 85 and

WHEREAS, Ray Lucas served this country in the United States Army during World War II and later finished his education with an engineering degree from Louisiana State University, and

WHEREAS, Ray Lucas was involved for many years in the grain elevator business, including serving as General Manager of the Ruleville Grain Elevator in Ruleville, Mississippi, and the Jonestown Grain Elevator in Coahoma County, Mississippi, and also served as the President of the Mississippi Feed & Grain Association, as well as Director of the Mid-South Grain Shippers Association and

WHEREAS, Ray Lucas was the co-founder of the Tom Soya Grain Company which made the first barge shipment of cargo on the Tenn-Tom Waterway since the steamboat era and was dedicated to promoting the Port of Clay County, Mississippi, and in developing such port as an active economic industry for the citizens of Clay County, Mississippi, and

WHEREAS the Clay County Board of Supervisors wishes to recognize and honor Ray Lucas for his many contributions in the development of the Port of Clay County Mississippi, and for the character and integrity he demonstrated in his personal and business life,

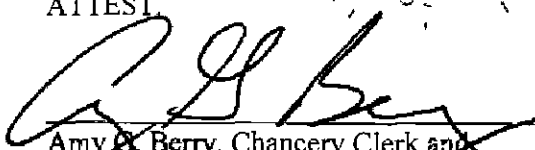

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Clay County Mississippi does hereby rename the former Port of Clay County, Mississippi, the "Raymond D Lucas Memorial Port" in recognition of the many years of dedicated service of Ray Lucas and for his many contributions to economic growth in Clay County, Mississippi

SO ORDERED by the unanimous vote of the Clay County Board of Supervisors on this the 5th day of September, 2013
