**IN THE MATTER OF AUTHORIZING THE CHANCERY CLERK TO EXECUTE THE  
CONTRACT WITH DELTA COMPUTER SYSTEMS**

---

There came on this day for consideration the matter of authorizing the Chancery Clerk to execute the contract with Delta Computer Systems

It appears to this Board the Chancery Clerk, Amy Berry, is requesting this board the authority to purchase a computer and imaging software program for the land record indexing system for the Chancery Clerk's office, and,

It appears to this Board the Chancery Clerk has obtained two quotes, one from Delta Computer System which would cost \$25,050 00 initially and \$495 00 each year after the first year and the quote from Syscon Computers is an annual cost of \$34,692 12, as attached hereto as Exhibit A, and,

It appears currently there is budgeted in the Chancery Clerk's budget \$18,600 00 for the said purchase

After motion by Lynn Horton and second by Luke Lummus this Board doth vote unanimously to authorize the purchase of the land record indexing system from the Delta Computer Systems in the amount of \$25,050 00 and further authorizes the Chancery Clerk to execute the contract with Delta Computer Systems

SO ORDERED this the 1<sup>st</sup> day of December, 2014

Clay County Courthouse  
P O Box 815  
West Point, MS 39773-0815

Dear Ms Berry

Please find below the requested cost information on Delta's Web hosting of Clay County's Land Index and Image information. In addition to the standard hosting format, I am providing an optional format for your consideration.

**I Standard Web Hosting Format**

<u>Software/Service Item</u>	<u>Setup Cost</u>	<u>Monthly * Hosting Fee</u>
One-time setup	\$3,500 00	
Land Index Information		\$200 00
Land Records Images		\$200 00

\* The monthly hosting fee is based on the following rates \$200 00/50,000 records. The cost quoted is good for the first 2 years after which, the cost will be based on the "per record" rate in affect at that time. **NOTE** Price does not include the County's Images (currently on CDs) from the prior back scanning project.

**II Optional Web Hosting Proposal**

As an option to the standard County Web Hosting format as shown above, Delta Computer Systems, Inc will host the Land Index and Image records and charge a Subscription Fee for those users wishing to view this data. There is no cost to the County for this Optional format.

Treva,

Attached are two documents which detail the contents of your entire vault as discovered and documented by our staff in July of 2012. The first document details the historical records going back 40 years excluding the items already scanned and digitized for the county in previous projects. It is a subset of the second document. The second document gives a comprehensive accounting of your vault all the way back to the beginning of record keeping. We can scan all or a portion of any of these documents in keeping with the desires of the county to preserve the most important or frequently requested documents. The price for a comprehensive scan of all documents is \$350,144. The price for a scan of the most recent 40 years of all documents is \$125,530.

Most counties choose to scan deeds and mortgages first. And most start off as Clay County has by scanning a range of documents, expanding the process as budgetary restraints allow. We are prepared to work in whatever increments the county desires and may even be able to spread the cost of a larger project over several budgetary periods. Many counties have a set budget for each year and we work with them to scan a range of documents within that budget. Point being that we are flexible and seek to provide value to the county.

Another important element to consider is a system for entering new data, for searching old data, for providing remote access to interested and qualified parties, and for overall management of these historical documents Syscon's PROMIS - Public Records Optical Management Information System sets the industry standard in that role And it can incorporate the scanned images already in use at Clay County With PROMIS the county capitalizes on the previous investment in preservation As we understand the needs of the county, such a system would be comprised of

✓ 5 users (2 to scan and clock, 2 with index rights, 1 view only)

County already has Win7 Pro on existing workstations and will not require upgrades

County already has HP LaserJet 4 printers (at least one) or printers capable of HPLJ4

Installation

Remote access will be required

This 5 user system with remote access server, PROMIS server, 2 recording clocks and 2 scanners, installation and training, ongoing support including software updates and free telephone technical/training support, will cost \$2,891.01 per month on lease No up front costs for the system And no costs to the county for the remote access The remote access feature actually generates revenue for the county in increased print revenues

This is a lot to throw at you at once But we hope this helps you in your discussions with the board tomorrow If you have any questions or need to have these numbers broken down in different ways, please do not hesitate to contact me

Best regards,

Michael
